Summary: The Quick Notes Learning System

1. Take the pretest.
2. Grade the pretest using the complete solutions provided in Appendix 2.
3. Study the solutions of problems you answered incorrectly.
4. Study difficult subjects using the appropriate Quick learning unit. Pretest problem numbers match the learning unit explaining how to do the problem. When the pretest has more than one problem from a learning unit, the pretest's problem number has been followed by a letter.
   A. Additional practice problems may be done as part of a learning unit or they may be completed after a quiz or the posttest.
   B. Measure your understanding by reviewing key concepts and taking a quiz.
   C. Maintain skills by doing the cumulative review problems.
5. Take and grade the posttest.
